Re: Resident Visitation and Website

We are pleased to inform you that we have met the requirements to start outside limited visitation for our residents. **Please read our Millview COVID-19 Plan attached in its entirety** which defines our procedure and practices that must be adhered to, to comply with Department of Health rules for visitation.

We will start scheduled visitation on Tuesday July 28<sup>th</sup>. See our visitation plan with the procedure to schedule visits. We will allow two residents to have visitors in each time slot. Your cooperation in adhering to the sign up and visitation procedures is greatly appreciated to ensure all residents are able to receive visits.

We are in process of transitioning to a new Millview of Latham website and this will be completed by early next week. This website will have a COVID information button. Our current status on allowing visitation will be posted there.

Please check before you come to Millview for any changes to visitation. To expedite our communication to you regarding our COVID visitation status we will be updating that website page and sending you an email.

The web address will still be the same [www.millviewhomes.com](http://www.millviewhomes.com)
