To Millview Residents and Families

From: Linda Brannigan, Administrator

Re: Covid Community Update

As many of you are aware COVID cases are on the rise in New York, at Millview we continue to diligently take all precautions to stop the spread of COVID-19.

Starting November 23rd, we have changed our quarantine timeframe for any resident leaving Millview and returning from **3 to 7 days**. Anyone returning from a hospital or rehab or admitted to Millview will remain at 14 day quarantine upon return. In addition, we are requesting any medical appointments that can be accommodated by telemed to do so.

We are happy to announce that they have approved our beautician to be allowed in our community and she will start this week we must adhere to all DOH directives regarding beauty salon services. You can view our COVID visitation plan, including our Beauty Salon COVID -19 procedures on our website COVID page. www.millviewhomes.com

Indoor visitation has been going well and appreciate your cooperation at following all procedures. As a reminder each resident is allowed 1 visit per 10 days to allow all resident a visit.

Millview has applied to get the COVID vaccine when available to be offered to our residents and staff. We will keep you updated as we learn more information regarding availability and distribution to us.

Many residents and families have inquired about Thanksgiving and leaving our community for a family gathering. While this a personal choice for each person, please keep in mind the Department of Health recommendations for small gatherings and safety guidelines to prevent the spread of COVID, we are all counting on each other in our community to do the safest thing for everyone that lives here.

If you do plan on leaving our community please call several days ahead with your plans so that we can have medications ready if needed.
