

4/2/21

To: All Residents and Families

From: Linda Brannigan, Administrator

Re: Update to visitation plan

Beginning April 6, 2021 we will be allowing visits in resident rooms. We will still follow the same procedure of calling on Mondays to arrange for a time to visit that week.

Each resident will be allowed 1 visit per week in their room with a maximum of 2 people for 1 hour.

If you have confirmed a time for scheduled visit, please arrive to our front entrance at your designated time. You will be screened there and accompanied to the resident room.

If there are people being screened at the time you arrive please wait outside or in the vestibule to allow for social distancing until we are able to screen you.

Compassionate care visits are allowed outside this visitation program by coordination with the Case manager or Administrator and the resident and family.

Millview may change the location of our visitation program or cease visitation if warranted by the number of COVID cases in the county or at our discretion to ensure the safety of our residents

Our updated visitation program is attached.

Please visit our website COVID page for the most of to date information or call if you have any questions
