Re: Covid Community Update

We are excited that the warm weather is here and Covid vaccinations have allowed the outside world to loosen some restrictions. However, many of the restrictions placed on Assisted Living facilities have been slow to change even if residents are vaccinated.

I am pleased to report that 100% of our residents are vaccinated and 80% of our staff. All staff are still required to be covid tested once a week.

At the time of this letter the following guidelines and community rules are in place regarding COVID, we do hope some of the mandates imposed on us will continue to change and we will keep you updated as our Associations continue to advocate for changes with lawmakers.

Quarantine – Residents can go out of the community for any reason(personal or medical) and not have to quarantine upon return.

Residents going to the hospital and returning who are fully COVID vaccinated and test negative for COVID before returning do not need to quarantine upon returning to Millview. Those not fully vaccinated will be quarantined.

New admissions fully vaccinated and COVID tested negative before arrival will not be quarantined. If they are not fully vaccinated they will be quarantined

If a resident test positive for COVID the state has clarified that we do need to stop all communal dining and group activities and work with our local county to determine how long our community needs to go on quarantine. If a staff member tests positive we will also be following DOH and County guidelines as in the past

Residents, Staff and visitors are still required to wear a mask and social distance regardless of vaccination status.

Activity programs are still limited to 10 people at a time. We are trying to get everyone outside as much as possible, residents are still required to be supervised on the front patio to ensure social distancing, however our courtyard is always available.

Our renovation projects that were paused during COVID will be re-starting by June 1, this includes sprinkler replacement in the front part of the building and resident room renovation in our standard private rooms.

We are revising our visitation days, to allow everyone more access, please see attached Visitation Update and check our COVID page on our website www.millviewhomes.com. Starting June 1, 2021, You do not need to call on Mondays to schedule a visit, visitors may arrive during our new schedule visitation times to be screened for a visit.
